- Romanian
- Enghlish

PROFILE

As a student, adaptability and resilience characterize me, finding myself in a constant search for opportunities that allow me to develop.

EXPERIENCE

Software Enginner Intern at Grid Dynamics
September 2024 - Present
Currently working as an intern for Grid Dynamics. I am specializing on frontend development with React, Javascript Typescript, TailwindCSS and Sass.

Assistant Coordinator & Volunteer at IT Department LSE
April 2023 - October 2024
I was a volunteer at Electronics Student League (LSE), which is the student organization of my faculty. I was a part of the leading team of the IT department of the organization. Alongside the rest of the leading team and the volunteers of the department, we've developed and deployed various web apps (mainly React apps) based on the organization's needs.

PROJECTS

All my projects can be accessed at adrianboscanici.com

- Various LSE projects (React.js / Vite.js)
- Weather App and Crypto App (Next.js)
- Workout Notes (MERN Stack App)
- Car Racing Video Game (C# Unity)
- Students REST API (Java Springboot)

EDUCATION

Politehnica University of Bucharest

Faculty of Electronics, Telecommunications and Information Technology, Computer Science (2022 - 2026)
